Mr. Sam Friesen
Editor, EAA Chapter 1344
1339 Pueblo
McPherson KS 67460

Dear Sam,

I would like to take this opportunity to say thanks for the fine work you're doing with Chapter 1344's newsletter. I've read thousands of chapter newsletters over the years and I find that one of the most important tasks in holding together a group of aviation enthusiasts, particularly in chapters, is the newsletter editor and president. How often I've seen wonderful chapters having as high as 150 members disintegrate because of the lack of communication and lack of leadership.

I enjoyed the article "Aeronautical Lighting" and though I've flown considerably (some 68 years), I would be hard-pressed to pass the test.

Please give everyone in the chapter my very best regards – Dave, Paul, Warren, Mike and Max.

Sincerely,
EXPERIMENTAL AIRCRAFT ASSOCIATION

Paul H. Poberezny
Founder and Chairman of the Board
